TESTIMONIALS

**Pham Nhat Phuong, Training Center Director
of FPT Software:**

“FSOFT Corporate Training Center has partnered with Stevbros in Scum for Developer programs in order to enhance our developers' skills and expertise in Scum projects. Our experience to date with the professionals from Stevbros has been excellent! They have worked with us to create wonderful programs for our most important asset, our people. We highly appreciate their supports and care. We celebrated our graduating class and the success of the program has been measured by the placement of a majority of our graduates in management positions. As receiving positive feedbacks from our own employees who attended these training programs, we would like to have further partnership with Stevbros in long-term. We look forward to the career success of future graduates and our partnership with Stevbros.”
